Product Details

- **Changing Colors Function:** Perfect smart palette, 16 million colors for you to choose from.
- **Timed Function:** Set the time to turn the light strip on and off. Controllable time allows you to enjoy smart home life.
- **Remote, App and Voice Control:** Either use the accompanying remote, the Smart Life/Tuya Smart app, or ask your smart speaker to set the mood and colours you desire, whether it's time to watch a movie, or to add more energy into a room.
- **Control with your other Tuya smart lights:** Sync your lighting preference with your Tuya Smart bulb so extend your desired colour palette to create the right ambience.

FAQ

Can I use the remote control together with the app and voice commands?

Yes, you can. Just follow the instructions in the accompanying installation manual.

The lights are water-proof, does that mean I can hang them outside?

If the electrical components where the light strip is powered on from is in an area that will be unaffected by rain or water, the light strips can be hung under roofs, away from direct water.
