Product Details

- No Hub Required: Connect the Smart Wi Fi LED to your 2.4 GHz wi-fi network with the Tuya Smart / Smart Life app (iOS/Android) to get started
- Smart Lighting: Turn lights on and off, dim and brighten, and more with the app
- Voice Control: Connect the bulb directly to your Alexa or Google Assistant device and control your lights via voice commands
- Create Scenes and Routines: Set scenes, change colors or put your lights on a schedule, whether at home or away
- Energy Efficient: Smart Wi Fi LED bulbs save 80% energy compared to incandescent lighting

FAQ

How do I set up Smart Wi-Fi LED bulbs?

Use the Tuya Smart / Smart Life app to connect your bulb to your 2.4 GHz wi-fi network. You will need to do this to use the bulb, even if you use a voice assistant.

Can I use Smart Wi-Fi LED bulbs with other Tuya smart products?

Yes, Tuya Smart Wi-Fi LED bulbs can be set up through routines or automations to work with other Tuya products, such as Wi-Fi door/window sensors. The lightbulb can be programmed to switch on automatically when you open your front door when coming home in the evenings.

Can I still turn off the lights from a physical switch?

Yes, you can also use the physical switch to power on or off. However, the switch needs to be on to use an app or a voice assistant.

Can this bulb be used outdoors?

No, this bulb is for indoor use only.
